## INTRODUCTION

### CONGRATULATIONS ON GETTING ACCESS HERE! YOU MADE A VERY SMART DECISION.

Let me introduce myself really quick, before we go to the important part – your financial future.

My name is Carl – I’m a 29-year-old guy from Germany whose dream has always been to live freely. Living in **time, money and geographical freedom...** free from the limitations that come when you basically have no money.

I chased that dream hard, caught it, and am living it today. The most satisfying feeling of all has been helping others achieve their dream lifestyle as well. That’s why I founded Financial Freedom Academics.

But it’s not about me and I don’t want to bore you with my story. [Click here if you want to read my whole story.](#)

Chances of finding success are very slim if you try to figure things out on your own.

How do I know that?

Well, as mentioned, I was a struggling youngster a few years ago who was grinding the 9 to 5 job that he always hated. But I had a **fire in the belly** and an extreme **passion** for learning how to **make money online**. So, I started the journey alone.

In the process, I took dozens of different courses from the so-called “Gurus”, started and failed different businesses, and lost money on investments. Some days were so bad, that I felt like screaming in my room, alone!

I was doing 80-hour weeks with constant struggle and hard work without taking a single day off. But I finally discovered a **secret method** which helped me make money online and gain true financial freedom. And it was waaaaay easier than I thought it would be – actually stupidly simple.

**AND HERE IS THE BEST PART!  
I AM WILLING TO GIVE AWAY THIS SECRET METHOD.**

I know everybody wants to make quick money on autopilot and on a long-term base. And yeah, I will show you exactly how to do that.

The following method I will reveal is the **easiest and most powerful method** when it comes to making lots of quick money on autopilot and - the best part - I will show you everything right now. 100% FREE. People are always concerned about free stuff because it’s free - but let me tell you one thing. For me personally money is - by far - NOT the biggest thing on earth.

It’s to **put a smile on people’s faces** – hope you think the same way. 😊

Anyway, I don’t want to be selfish and keep this powerful passive income method for myself – This **COULD MAKE SO MANY DREAMS COME THROUGH** (if you take action).

Get ready to **clear your bills and take your earnings to the next level**. Get prepared to be WOWed with SO much value that you’ll be beating down my door for more.

**LET’S GO STRAIGHT TO THE GLORY PART OF THIS GUIDE – THE  
WONDERFUL METHOD. HERE IT COMES.**

No worries – I'll show you how to do killer promotions in my 100% free training. It's just too much to cover all the details inside this guide. Anyway, it's **very important** that you go through the complete step-by-step guide below.

I've created a [detailed video step-by-step tutorial](#), if you prefer this over reading. Just make sure to **use the guide you're reading right now for the promo sharing strategy** – this is important to make this work.

You already have this valuable guide – now it's up to you to execute these easy steps.

### Why you definitely should take action on this method:

- ✓ It's **Newbie-Friendly**
- ✓ This method **works!**
- ✓ **Guaranteed profit** (\$50 your first day, and \$200-300\$+ daily afterwards)
- ✓ **No investment** required
- ✓ I **did almost everything for you** already
- ✓ 95% **Autopilot**

## LET'S START - THIS IS THE METHOD YOU'VE BEEN WAITING FOR

### PART ONE

- STEP 1 Firstly, [sign up here for free](#) (CTRL + LEFT CLICK), this website pays you \$3 per free sign up with your referral link. Also, it pays you 10% of your referrals earning (you can imagine how powerful this could be...).
- STEP 2 Find your own referral link [here](#) and copy it to your notepad.
- STEP 3 Now, it's time to download this MS Word Document by clicking [here](#) and then the download button on the top right corner. Later, after executing the other steps, you can upload this to Google Docs to get your shareable link.
- STEP 4 This is **important**: Replace your referral link you got in Step 2 with the link from Step 1. To do this just mark the "sign up here for free"-line, right-click on it, choose "Link" and insert your own referral link. Afterwards, save the document.
- It's VERY IMPORTANT NOT TO CHANGE THE REST OF THE DOCUMENT. This is because it's proven to be very powerful as it is. It creates trust, authority and engagement. We get people to the [100% free training](#) and show them how they get a massive amount of passive income by doing promotions the right way. As mentioned, you'll get 10-30% of your referrals earning and you can make tons of insane money too if you follow the steps inside this training. This means if your referrals take action – you will earn even way more money. Anyway, obviously if you change the content of the document, your results will by far not be that powerful...

- STEP 5      Now it's time to get the coins rolling. The best way now to spread your referral link is through distributing this eBook/Guide for free. Do not worry you don't have to manually send this eBook/Guide to anyone.
- Have you ever heard of [www.scribd.com](http://www.scribd.com)? Basically scribd.com is a website that allows people to share and download eBooks for free. Make sure that you upload the eBook with your referral link here. You will gain like 30-100 downloads daily if you upload the eBook with your referral here.
- Here are 10 sites you can use to distribute your passive income generator.
- [SITE 1](#)
  - [SITE 2](#)
  - [SITE 3](#)
  - [SITE 4](#)
  - [SITE 5](#)
  - [SITE 6](#)
  - [SITE 7](#)
  - [SITE 8](#)
  - [SITE 9](#)
  - [SITE 10](#)
- Doing this you will start getting like 3.000-5.000 or even more downloads daily to your eBook, and like 1.000-4.000 of the downloaders will join your referral. This will make you earn like \$250-\$1.000 daily (You will make more money if you use more time to set up this Auto-Pilot)
- 2              Sit back and watch your money rolling in.
- STEP 7      Want to scale this to the sky and beyond?
- Distribute this document everywhere – the more, the better. This is proven to convert very good.

### Expert Advice

Here are a 3 webinars that will help with some of the issues commonly faced in this line of income generation, they are designed to sell but also give a lot of useful free info.

- [webinar 1](#)    in this webinar we handle facebook traffic.
- [webinar 2](#)    in this webinar we talk about easy landing page creation.
- [webinar 3](#)    in this webinar we talk about the importance of creating a list.

To make this even easier for you, I highly advise you to upload this MS Word doc with your referral link to [Google Docs](#) via Google Drive. Now you have a simple Google Doc link you can share **EVERYWHERE** you can imagine (even Facebook accepts Google Doc Links in posts). Be creative. There are so many places where you can share your document link (Fiverr is also often your best friend). There is no income limit. Your life, your choice.

I've created a super nice social media post for you that you can use for sharing your Google Doc link. This will boost your conversion to the moon and back. Download the post [here](#) (emojis will appear in the downloaded word doc) and use this together with your Google Doc link (guide with your referral links).

**Best advice ever**

Use it as a highly valuable bonus in your next promotion. You are officially allowed to do that when you read this. Use this [together with my free training](#) where I show you how to do super promotions. 😊

**PART TWO**

- STEP 1 Almost the same as before – the only difference here is that you cannot promote this immediately as the company needs a short time to approve your request for the referral link. But as soon as you have your link, you should take serious action here.
- Anyway, [sign up here](#) (also free). Click on the yellow button “I Want to Promote This Merchant on My Website” and sign up. The website pays you \$1 per free sign up + 10-20% of your referral’s earnings.
- STEP 2 Find your own referral link [here](#) and copy it to your notepad. You need to type “[squishycash](#)” into the search bar, ENTER and then “Join Program”. This will take a little bit until you get the request approval. After the approval of your request, you’ll find your link [here](#) > Get Links > “[squishycash](#)” > “Get HTML Code” > Copy the link in between “ ”.
- There you go.
- STEP 3 Repeat the steps from the main method. Download the MS Word Document [here](#) and then click the download button on the top right corner to download the word file, change the link in Step 1 with your own referral link (you got after your request’s approval).
- STEP 4 Distribute this document wherever you can. Free sharing sites, SlideShare etc.
- To make this even easier and more profitable for you, you can just upload the document to [Google Docs](#) via Google Drive, get your link and spread the link everywhere (even Facebook doesn’t mind links from Google Docs inside posts).

## FOUNDATION ON HOW TO BUILD YOUR PASSIVE INCOME EMPIRE

### FIND YOUR NICHE

Passion is an intricate part of finding success in anything and making passive income is no different. With a long list of things that you can do to make passive income, you need to find what you're passionate about and can wholeheartedly push. So, for starters, **figure out what you would love to venture into**. You also need to **do a market survey to understand what is in high demand** so you can go for that. If it's possible, pick a niche where the competition is a lot less.

### FIND YOUR AUDIENCE

After you have found your niche, the next step for making passive income is to find your target audience. **Who** are the exact people that would be interested in what you're offering? **Where** do these people hang out? **What** do they do? **How** old are they? Getting this information will **help you know how to target a specific audience and get more traffic** to your site.

It's also important to find out who exactly would be buying the products or services because this helps you understand how exactly you can meet the needs of these people.

### SOLVE YOUR AUDIENCES PROBLEM

In other to solve the problems of your audience, you need to answer following question by yourself: **“What exactly are the problems these people have?”**

Of course, this is something you should have considered before choosing a niche, but this is the time to figure out exactly how. Come up with strategies to meet their needs and make them very mouthwatering offers that will truly convert.

### OFFER REAL VALUE

There's only one reason why anyone would choose and stay with you. It's because of the value you offer. You need to offer your visitors real value they can take home every time they visit your page. Here's a question you need to answer to yourself, but you must ensure that you offer something new and valuable every time. First impressions always matter, so giving real value at the first point of meeting is a **great way to get your visitors on to the next stage of your funnel**.

## BUILD A RELATIONSHIP

There's no way else your audience will trust you enough to stay with you. How you build a relationship with your audience is totally up to you but **interacting with your audience is always a winner**. Be there to respond to comments, answer questions and help solve challenges. Your audience wants to feel the human presence behind the keypad. Building a strong relationship with your audience is your best bet for making sales.

## AUTOMATE EVERYTHING

Automating repetitive tasks makes your marketing efforts a whole lot easier. These days, people automate emails for email marketing, social media posting and even ad campaigns. This is a great way to have work done even when you're not actively present.

## SCALE

After building a successful passive income venture, you need to plan a scale strategy that will grow the business and bring in more sales. As soon as you control everything, scaling is not a problem at all. I highly suggest mastering ONE traffic source (for me it's Youtube organic and paid traffic). When you master your traffic source it's easy to scale. This counts especially for paid traffic as you only need to increase your daily budget. It's all about the ROI (Return of Investment).

## ACTUAL WAYS TO BUILD YOUR PASSIVE INCOME EMPIRE

If you are not quite sure what you can do to make passive income, here are passive income ideas you can choose from.

### AFFILIATE MARKETING

Affiliate marketing is a way of **making passive income from the sales of another person's or company's products**. You earn a commission every time someone clicks on your affiliate link and buys a product or service.

### EMAIL MARKETING

Email marketing is a great way to make passive income. When selling a product or service you can convert up to 40% of your consumers by sending them a convincing email copy. In order to achieve this, **you need to build an email list**. Building an email list can help generate a lot of sales. With email marketing, you can send out special offers, newsletters and promotions among other engaging content. It is an **effective way to build a relationship with your audience**. With email marketing, your audience can easily engage with your brand and take action, which could mean more sales for you. And the best part is, **you can automate emails**, so you do not have to be actively present at a particular time to send out emails.

### MAKE YOUTUBE VIDEOS

You can earn a lot of money by simply posting videos on YouTube. Here's one rapidly growing venture you should take advantage of. You could do reviews, post music or dance videos, offer useful tutorials or share tips for baking. **Any content that you feel is valuable to your audience**, you can post that. Once you have started having a lot of attractions and views, you can apply to get Google AdSense attached to the videos. You will have to pass a certain requirement before your application may be accepted. With Google AdSense you **get paid whenever a viewer watches your ad or clicks on it**.

In order to earn a lot from AdSense, you will have to create a lot of interesting videos. Creating a lot of them can help you have multiple income sources. No doubt there's quite an amount of work you would need to put into video marketing but the moment that's done, you can relax and watch the passive income keep rolling in.

### WRITE AN EBOOK

Ever thought of putting your passions, knowledge and expertise together in a book and sharing it with the world? Well you should because this is one excellent way to make passive income. Writing an eBook is one thing that can bring in the income stream for years. You **only need to write this book once and every time someone makes an online purchase, you're making passive income**. You can either choose to sell this book on your own website or make an affiliate plan with another website that publishes content similar to yours or what's in your eBook. This is the same with creating video courses.

## THE SECRET WEAPON OF ONLINE MARKETING THAT NO ONE TELLS YOU ABOUT

A lot of people are still very confused on how exactly to be successful in doing online businesses and **making huge passive income** in that regard.

Admittedly a lot of people have passive income ideas which could grow them from being zero poor to becoming a millionaire **within a short time** only via virtual engagements.

Many are also aware of the several options of activities and adventures that could give huge returns but are bereft of the 'how'. Most commonly, online marketing has **stolen the show** in producing massive income to their vendors.

It is one of the most common passive income ideas whose increasing reputation and feats in making **independent income earners are traceable** to the global village that has been created following the advent and advancement of internet and digital technology like the ICT.

Online marketing however exists in forms. From inbound to outbound marketing, affiliate marketing, social media campaigns, search engine marketing (SEM) and so on, there is a wide scope to fix any passionate and interested professional to join the race and blaze through to the top even if it takes to select a niche and personalize it.

This is not addressing yet the mouthwatering possibilities that abound with ecommerce and other relevant but advanced options of online marketing. However, **people seem to be threading the journey wrongly** because of the lack of knowledge about what I call "the secret weapon of online marketing".

Sail the cardinals (East-West-North and South) at your will, the real professionals would tell you that while there is no one-size-fits-all approach to digital marketing, there are meeting points, common grounds, seemingly similar objectives and a unique fundamental secret to all. This **fundamental secret is "valuable content"**. Content marketing is the backbone of digital and online marketing of any sort. However, the success of content marketing is so dependent on creation of valuable contents. This is because money is only made in whatever online venture including online marketing via the **trading and sharing of valuable information** which generates leads, hence prospective sales to product and services sellers.

This is typically to say that there is no guaranteed success in online marketing regardless of how **brilliant your passive income ideas** and other strategies in the sector are if you don't master the all-important art of content marketing.

Content marketing is basically a **strategic marketing approach** focused on creating and distributing valuable, consistent and relevant contents which are tailored towards specific products and services development, and to attract as well as retain a clearly identified and defined audience in order to intimately drive customers' action.

Most online marketing techniques and strategies despite how brilliant they are failing woefully exactly because of their lackluster performance with content

creation. Most people have failed to realize that since traditional marketing approaches are **failing day after day** and become less effective in matters of seconds, the forward-thinking approach therefore is online/digital marketing which finds its base in content marketing.

#### THE "HIDDEN" SECRET

Many selfish professionals and trainers **wouldn't tell you this secret** that useful content is expected to be at the core of your marketing, but I am here to help boost your money making chances with online marketing and so would hide nothing from you.

This means that instead of directly pitching your products and services and trying to force it through the throats of your potential customers, you would provide truly relevant and useful content around your products and services such that your prospects and customers have a store of value, awareness and consciousness in them.

Sometimes, your contents call them to action and so it markets you in a subtle and emotional way than the traditional approach. Your contents are also expected to be engaging in a way that it would be a **self-help problem solving tool for your customers** and prospects.

This would make them think that you are clearheaded about what you are producing and selling and would give them much more confidence to patronize your brand. Now **imagine developing an online marketing strategy around this success booster!**

#### THE "MOST USEFUL TOOL" IN ONLINE MARKETING

Content marketing is such a useful tool in online marketing. This is why it has been identified and **used by the world leading brands**. If you are therefore venturing into online business and wish to make mouthwatering passive income from online marketing including affiliate marketing, such that you would be able to take your clients to a height where they would attract clients and get promoted to being top brands, it begins with carefully planned content marketing.

Furthermore, every online marketing activity premised on the foundation of content marketing usually increases business sales, saves marketing costs and provides brands with only organic leads that usually become trustworthy and loyal customers.

## THE PRESENT AND FUTURE OF ONLINE MARKETING

Take a few steps backwards and read the definition of content marketing again. You would realize that the difference between content marketing as an important part of online marketing and the international garbage being sold by some online vendors whose services do not transmit into leads, hence suffering partner firms with lack of enough sales and prospects is the fact that they have failed with valuable and relevant content creation and distribution.

How then would you make passive income as an online marketer in that kind of situation? More so, in this age where millions of companies send out messages to prospects and customers daily, what should stand your services out as a proficient and professional online marketer is your **clearheaded strategy of putting relevant and valuable content creation** first in your approach. A tested and trusted service following this line of action would guarantee you more clients, hence more income.

## CONTEMPORARY ONLINE MARKETING IS “VOID” WITHOUT CONTENT MARKETING

Let us be factual and realistic. **You are not an online marketer** if you cannot make content marketing the core of your strategies. Why? Marketing is simply impossible at this age without great content. If you therefore create an online marketing strategy that doesn't make content marketing a top priority and so your client suffers the mishap as they see no appreciable improvements in the lead generated or converted sales, no one would trust you with their services in a matter of time. Hence, you would not be making desired funds as an online marketer. Just think about it. Quality content is part of all forms of marketing.

- ✓ It comes before your social marketing strategy
- ✓ Search engines reward businesses that publish quality contents with high ranking for certain keywords
- ✓ Even successful PR strategies addresses issues that readers care about
- ✓ It is also essential for inbound traffic and lead generations.

What then can you do as an online marketer other than **sharpen your skills** to lead your niche? Begin to make content marketing a marquee part of all your online marketing plans. This would boost your reputation and attract more clients to you based on your success record. Once you master this skill and many more, you would be surprised how massively you have begun [to make a living online on autopilot](#).

## WHAT YOU MIGHT DON'T REALIZE AT ALL (AN INSANE INVITATION)

You have a big dream to get online and run a successful Online Business like so many other marketers you've seen online flashing their wealth and fancy cars on your face.

But after consistently falling on your face every time you've tried to get started, you're starting to rethink things and whether you're better off **looking for a regular 9-5 job** like all your friends.

As you struggle to not give up and persevere, disappointment and frustration have started getting to you.

Because you have:

- ✓ Bought so many of the so-called GURUS "perfect solutions" out there.
- ✓ Tried different methods and gimmicks.

And...

- ✓ Have run through your life savings in the process.

... And each failure is like a dagger through the heart screaming at you to throw in the shovel.

Yes, it's extremely infuriating when you know that **you CAN do it too** like other successful marketers living their dream – IF only you could figure out what's missing.

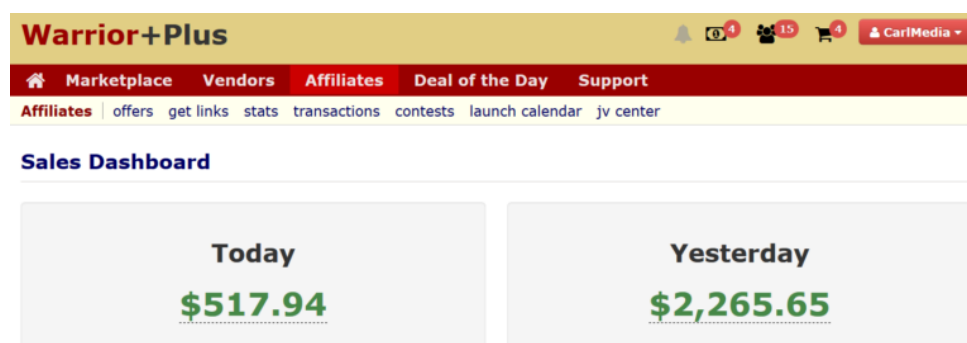

Before I ever achieved even a tiny taste of success, there were a lot of ups and downs. So many times, I was ready to throw in the towel and give up.

When I first started running my own online business, I **invested a lot of tears and sweat**. Including my entire life savings on products/programs that have ZERO value. Money pits products that do nothing but **drive you in further and further into debt and a life of misery**.

And as you can imagine, none of it worked out for me because I had nobody telling me how to do it the RIGHT way.

**Of course, you know *exactly* what I'm talking about, right?**

In the past few months, I have CONSISTENTLY achieved results like these:

**And NO!** I don't post this to show off and wag my achievements on your face, as I have no need for that. I just want you to realize what's possible when you are willing to learn the ins and outs of online marketing.

**With the amount of success, I have had, I knew I couldn't keep this on lockdown just for myself.**

Every day I'm constantly getting asked the never-ending question from people who are going through the same struggles and never-ending battle I went through.

And it seemed pretty selfish to keep it to myself... especially since it's been such a huge milestone in my success.

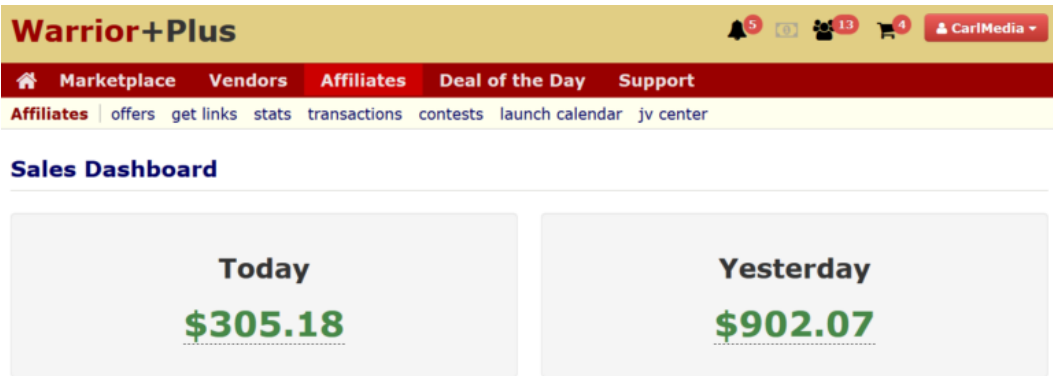

So, I'd like to let you in on the "secret."

Now... Are you ready to start?

For making a living online we will use a business model you probably already know (also because I've mentioned it in this guide a few times)... It's affiliate marketing. I know for a fact that many people already tried it. But **99% do it the wrong way**. I will show you how to do it the right way and how to put it on autopilot. This will allow you to have **more time for the ones and the things you love**. Take action on what you'll learn and enjoy your life in **time, money and geographical freedom**. 😊

Seriously, there are no limits! And as you can see, taking action on this is definitely worth it. The only thing you have to do is the Pre-Work.

Don't quit your job just yet, one of the best things about affiliate marketing is that you can do it part-time until you master it and have a good foundation. **Focus on one thing and master it. Take action, give value, fail, do it better and crush it!**

## LET'S SUMMARIZE THIS.

The success of affiliate marketing really starts inside your head. You have to be willing to invest first (by taking action) and then get your big reward.

**Too many people think short-term.** They want to get their RETURNS immediately and when they don't get anything, they give up.

To crush it with affiliate marketing you need to think long-term. You need to be ready to take massive action and learn from your failures – and most importantly – you need to give value.

Yes, I know it sounds like a lot of work but if you're willing to stick to the framework and take action here, you will be on your way to finally becoming Financially Free.

Also, don't be shy to **invest time and money in the RIGHT things**. Be bold to take risks and don't be one of those people who just hunt for FAST AND FREE opportunities. They won't work anyway and will end up frustrating you until you quit.

So, if you are ready to create your dream lifestyle within the next few weeks... For a select number of lucky people, **I have something very special for you**. I'll give you my premium training on **how to make \$10K+ per month** (Done-For-You Funnel And Free BUYER Traffic On Autopilot) as a 100% FREE training. Take action on what you'll learn inside this training and **live in time, money and geographical freedom**. I should charge \$1,499 for that kind of value...

[Click Here To Get Your 100% Free Training Before It's Too Late!](#)

**Thank you so much for reading this eBook.** I put a lot (!) of effort into it to give you the framework and arm you with the essential tools you need. Make sure to take massive action on this ridiculous powerful method laid out for you....
